

## Last year, the employees of Eastern Suffolk BOCES changed lives across Long Island.

Your organization's contributions, totaling **\$8,100**, helps to provide essential services to your neighbors in need. Here are some examples.

### Reducing Hunger

- One month of emergency food for a family of six

### Improving Access to Health Care

- Twenty five bereavement support group sessions for a parent who lost a child
- Hearing tests for six infants or toddlers to uncover hearing loss
- Two aquatics exercise classes per week for six months for a multiple sclerosis patient

### Assisting Neighbors in Need

- Six months of vocational workshop activities for a developmentally disabled adult

### Supporting Children and Youth

- Four months of before and after care for one child of working parents

## Why give?

### Invest in your community.

A strong community is a good place to call home. All donations stay here on Long Island to make a difference where you live.

### It's convenient.

Giving through payroll deduction makes it easy to donate. You won't feel the impact on your personal finances. And, 82 cents of every dollar you donate goes directly to those in need.

### Because you care.

Your contribution does the most good through United Way's Community Impact Fund. This fund improves access to health care, supports children and youth, helps to reduce hunger and assists neighbors in need.
